

Darkness is my favourite thing in the whole world

It's a magical tent.

It was AMASING!

Fabulous storytelling, My little boy was gripped.

I'm an ideas machine!

It was like night-time. I lay down.

It was funny when the darkness came out.

Wonderful story about Sister Sun and Brother Moon - we all really enjoyed listening to you bring the story to life!

It's a treat for 0 to 100-year-olds.

I liked the snake. I'm going to be a snake handler and now I know how beautiful they are I'm not scared of them.

It made my brain laugh!

I liked the colours. They kept changing.

Fabulous way to tell a story. My 16-month old just as captivated as my nearly 3 year old.

I liked the badger because he was like 'Oi, you took all the darkness.'

Really charming and interesting story, we both really enjoyed it. It was a first time experience like this, really cool!

The inside of my head is like that thing (the glow globe).

'I used to use overhead projectors at work, but never like this!'

It's [the rainbow snake] going to be purple next!

making darkness

The craft session and interaction with projector at the end was really good, my daughter loved it.

Thank you for the bit of darkness.
